

BENENDEN

Sixth Form Entrance Exam 2023

GEOGRAPHY

1 hour 30 minutes.

Name: _____

Current school: _____

Date: _____

Instructions to candidates:

- Answer **all questions** and divide your time equally. You should refer to case study locations and theories you have studied as often as possible.
- You will receive credit for annotated diagrams as part of your answers if appropriate.
- Ensure you number your pages and answers.

Section 1 – Physical geography.

- 1) Using examples of case studies you have studied, examine why some countries are more resilient to natural hazards than others. (25 marks)
- 2) With reference to either coastal, or river environments you have studied, examine which is better at preventing erosion and flooding: hard engineering or soft engineering. (25 marks)

Section 2 – Human geography.

- 3) Discuss the causes and consequences of rapid urbanisation in developing countries. Refer to places/cities that you have studied. (25 marks)
- 4) Evaluate the benefits and drawbacks of different forms of primary energy (e.g., coal, solar, nuclear etc). Refer to as many specific examples in your answer as possible. (25 marks)
