Read **Item A** below and answer the question that follows.

Item A

The media often portray role models with glamorous lifestyles. The news also frequently exaggerates the reporting of events.

The media may contribute to an increase in crime.

Applying material from **Item A**, analyse **two** ways that the media may contribute to an increase in crime.

[10 marks]

0 **4**Read **Item B** below and answer the question that follows.**Item B**

Official crime statistics indicate that people from some minority ethnic groups are more likely to be arrested for and convicted of crime than the white ethnic majority. For example, Black people are more likely to be stopped and searched by the police. They are also more likely to be arrested and convicted of crimes or sent to prison.

One view is that differences in crime rates between ethnic groups are the result of the way the criminal justice system labels and criminalises some minority ethnic groups. Others argue that there are real differences in criminality. For example, Left Realists highlight issues such as relative deprivation as a cause of crime and Right Realists argue there is a lack of social control in some groups.

Applying material from **Item B** and your knowledge, evaluate the view that differences in crime rates between ethnic groups are mainly the result of the way the criminal justice system operates.
